

Year 1 Autumn Term 1 Homework

Moon Zoom

Every other week, homework will be topic based. Choose a piece to complete. You MUST hand a piece once every 2 weeks and one of the pieces you have chosen MUST be a writing task. Every other week, mathletics and spellodrome tasks will be set online. We will display the topic based homework in the classroom on Friday 12th October to show the rest of the school and your parents, so make sure they are beautifully presented.

<p><u>Speaking and Listening</u> What do astronauts do in space? What do they eat? Where do they sleep? How do they wash? Find out some interesting facts about astronauts and be ready to share with your friends.</p>	<p><u>Art</u> Draw a picture of your very own planet. Does it have trees and flowers or is it an underwater planet? Are there strange animals on your planets or other humans?</p>	<p><u>DT and writing</u> Design your own alien. You can junk model or draw and label your alien. Don't forget to say what your alien is like. Are the friendly or scary?</p>	<p><u>Writing</u> Pretend you are an astronaut on a space mission. Write a diary about what you can see, hear and feel in space.</p>
<p><u>Science and Writing</u> Write a list of some objects you have found around the house and what materials they are made from. What are the materials like? Are they hard, bendy or rough?</p>	<p><u>DT and writing</u> Make your own telescope. Write a couple of sentences explaining what you can see through it. Can you see stars at night? Can you see green aliens on different planets?</p>	<p><u>Phonics</u> What different words can you make from the letters in space astronaut? e.g. What is the longest word you can make?</p>	<p><u>Research and Art</u> Take a look at the Hubble telescope website and have a go at replicating one of the photos. http://hubblesite.org</p>
